

Math Course 1

Name: _____

Date: _____

Summer Assignment:

Please show your work for the following problems.

$$243 + 987$$

$$523 - 349$$

$$124 \times 35$$

$$577 \div 9$$

$$8 - 2(6 - 3)$$

$$(3 + 5)^2 + 2^4$$

Solve the following word problems. Show your work.

If your grocery bill is \$64.26 and you hand the cashier four \$20 bills, how much change should you receive?

Tina spent $1\frac{1}{3}$ hours on math homework, 45 minutes on history, $\frac{1}{2}$ an hour on English and 25 minutes on art. How many **hours** did Tina spend on homework?
